## 2018 Bible Reading Plan in the Psalms

Bible reading is important to our Christian life, but meditation on the scripture is also important. It is far more important what we retain in our hearts than it is reading a large section of the bible. We desire that God speaks to our hearts through the word of God. Therefore it is important that we take our time through the bible.

This is a 1 year plan for reading the Psalms. It is very simple. Meditate on a few chapters per week. Find the key verses that you want to commit to memory and underline the scriptures that are significant in your life. You may also journal as you read through the Psalms so that you see how God speaks to you.

Unlike many reading plans, this plan is divided into weeks, which gives you more freedom, but you should never skip a day. If you are tempted to skip a day, make an effort to just read 1 scripture from that week's reading. Then think about that scripture throughout the week.
